1977 - PhD in viral oncogenesis (University of Genoa)

1985 - Master in Health Administration (Università L. Bocconi, Milan)

1980 - Associate Professor of Microbiology, Genoa Medical School

1987 - Present

Full Professor of Clinical Microbiology and Infectious diseases, Udine Medical School; Under his supervision dozens of students performed postdoctoral research. Mentor for Students of the *Scuola superiore*.

1989- present Director Clinical Microbiology /Virology Institute Udine University Hospital

1998-2007: Part time Consultant Salmaniya Medical Complex Kingdom of Bahrain

Member Infectious disease Committee SMC Kingdom of Bahrain

Member Antibiotic Committee SMC Kingdom of Bahrain

2011- 2012: Chairperson Internal review Board , Dept Clinical & Exptnl Medicine, University Hospital Udine medical School

2011-12: ID/CM consultant Palmanova County Hospital, affiliated at Internal medicine Dept, Palmanova , UDINE

2013. Platinum Medal for CME of the British medical journal

Member of:

European Society of Clinical microbiology and Infectious disease

European Society of Paediatric infectious diseases

Saudi Society of Clinical Microbiology and Infectious diseases

American Society for Microbiology

American Association for the Advancement of Sciences

International Society of Infectious diseases

Harvard Postgraduate association

Teaching experience (selected):

Present. Professor of Clinical Microbiology and Infectious diseases, Alfaisal University Riyadh, KSA. Coordinator, Renal Block.

1987-2012. Professor of Clinical Microbiology, Udine Medical School (Full time). Teaching duties for medical students and Allied Health Sciences (Nurses, Lab technician, Midwives, Biotechnology BSc and MSc).

Professor of Infectious diseases; Udine Medical School (Full time). Teaching duties for Allied Health Sciences (Nurses, Lab technician, Midwives, Biotechnology BSc and MSc, Prevention on workplaces)

Professor of History of Medicine for MSc students in Physiotherapy

2000- present: Member of the PhD program in Clinical and Technological Sciences at Udine medical School.

Professor at the Schools of Specialization in Dermatology, Orthopedics, Neurology, Intensive care and anesthesiology, Infectious Diseases at Udine Medical School, Italy.

2001-2007 : Director Course MSc In Laboratory Medicine, Arabian Gulf University, Kingdom of Bahrain

1998-2007 : Director Dept Microbiology, Immunology and Infectious Disease AGU, Kingdom of Bahrain

**Teaching, working, doing research** in France, Germany, England, Holland, USA, Poland, Czech republic, Slovenia, Croatia, Senegal, Sudan.

Areas of competence: Bacteriology, Virology, Mycology, Parasitology, antibiotic resistance, antibiotic therapy, STD, HCV, Tropical infectious diseases, bedside teaching

**Scientific, educational, administrative and professional activity (selected):**

Author of 135 original papers on refereed journals (see Botta GA in PubMed for relevant publications) widely quoted (see Google Scholar)

Author of more than 170 presentations at National and International meetings.

Author of a volume on *Clinical microbiology of anaerobic bacteria* (in Italian: *Microbiologia clinica delle infezioni da*

batteri anaerobi)

Author of a volume on Parasitology (in Italian: *Abbecedario di parassitologia medica*, 2000 )

Author of e volume: *Grazie al caso, alla necessità e...ai batteri (Thanks to chance, necessity and ... bacteria)*, Aracne Ed, Rome, 2011.

Author of a video "Practical demonstrations in clinical microbiology"

Member of the editorial board of national (Microbiologia Medica) and international Journals (Journal of Med Microbiol., Microbiol. Rev, Clinical Infectious Diseases, Clinical Microbiology and Infections, Journal Infectious Diseases in developing Countries), Founder and Associate Editor of Alpe Adria Microbiology Journal.

Member of the National Board of the National Society of Clinical Microbiology (1999).

Reviewer for Clinical Infectious Diseases, Clinical Microbiology and Infections, British Medical Journal, Bahrain Medical Journal, Journal of Bahrain Medical Society, Kuwait Medical Journal
